PROFESSIONAL SUMMARY

Working as a Java Full Stack Developer with NTT DATA Global Delivery Services from June- 2021 to till date.

EDUCATION —

HKBK College of Engineering, Bangalore
Bachelor of Engineering:
Electronics and
Communication
Year of Study: 2017 – 2021 |
CGPA: 8.7

PROFESSIONAL EXPERIENCE

- Deployed the enhanced applications in Dev and Test environments using **Jenkins** and **Azure DevOps**.
- Enhanced **Restful webservice** using **Spring Boot**, **Spring MVC**, **Spring IOC**, **Spring ORM**, **Hibernate with JPA**, **Restful Services**, **MVC and Micro Services**.
- Responsible for bug fixes which improved application performance. Working with onsite clients and users effectively to resolve the issues.
- Developed and supported the backend of a manufacturing client and adding new functionalities and testing them thoroughly as per the business requirements using **Core Java** concepts.
- Experience in Database Design and Database Programming(Stored procedures, Function, Triggers) using **MySQL**
- Experience in developing front-end user interfaces using **HTML5**, **CSS3**, **JavaScript**, **Bootstrap** to build highly interactive and user-friendly front-end interfaces.
- Experience with Software Development Processes and Models: Agile.
- Having good experience in using Jenkins tool for CI & CD.
- Experience in API testing using Postman.

KEY SKILLS —

Core Java, J2EE, JSP, Spring, Spring Boot, Spring JPA, Rest API, ORM: Hibernate, Microservices,
Database: MySQL
Frontend: HTML, CSS, JavaScript, Bootstrap, Data structures and algorithms.

TECHNICAL SKILLS

Java Technologies: Java, JDBC, Servlets, Jsp.

Distributed Technologies: Restful services.

Frameworks: Spring, Spring Boot, Spring MVC, Microservices and ORM: Hibernate.

Frontend: Basics of HTML, CSS3, Bootstrap.

Database: SQL, RDBMS, MYSQL, Oracle DB.

Tools Used: Service Now, Eclipse, Postman, GITHUB, Splunk, VS Code, IntelliJ IDEA, Deployment: Jenkins, Azure DevOps.

Operating System: Windows

PERSONAL PROJECTS

My portfolio Website: This is a pure frontend project which showcases my personal and professional details. The project is live on GitHub.

Project Link: <https://github.com/fb312/My-Personal-Portfolio>

Ecommerce Application: This application is built using Spring Boot where users can shop online using this application.

CERTIFICATION AND COURSES

1. Java Full Stack Development 🏆 October 2021
 2. Data Structures and Algorithms 🏆 January 2024
-
